Professional Profile

I am a proactive and creative Mid-level Full-Stack developer with strong experience using React, Angular, PHP, SQL, and .NET Core, with a solid background in web development and a strong focus on building efficient, scalable digital solutions, backed by a Bachelor's degree from the University of Costa Rica. Passionate about UX/UI design, combining technical expertise with visual and brand-focused design to deliver intuitive and engaging user experiences.

Experience

Full-Stack Developer & UX/UI Designer at Softcial Full Time | Aug 2022 - Today

- Developed and maintained web solutions using React, Angular, WordPress, and .NET Core, integrating REST APIs, implementing front-end security best practices, and ensuring optimal performance.
- Created custom Power BI visuals with TypeScript to enhance data visualization.
- Designed user interfaces, logos, and branding assets using user-centered and accessible design principles.
- Built and managed relational databases with SQL Server and phpMyAdmin, and led website and brand redesign projects using Figma and WordPress.

UX/UI Designer & Graphic Designer at WLARA Design Independent | Feb 2019 - Aug 2022

- Designed brand identities through a collaborative, hands-on approach, ensuring consistency and alignment with business objectives.
- Created user-centered website designs using UX methodologies.
- Maintained and optimized WordPress and Angular projects to enhance performance and usability.
